A Computer Science graduate from Vishwakarma Institute of Technology, Pune, currently working as an Assoc. Software Engineer at Veritas LLC. Always looking for opportunities to sharpen my skills and learn new ones.

Experience

Veritas Technologies LLC — Associate Software Engineer
(July 2021 - Current)

- Building a utility to convert JSON data from MS-Teams into Rich HTML formatted emails in **Java, HTML, and CSS**
- Updated and added validations to a legacy Web UI written in **EXT JS**

Veritas Technologies LLC — Software Development Intern
(January 2021 - July 2021)

- Built multiple Commandlets as a command-line alternative to Veritas' Backup and Recovery solutions in **Windows Powershell**
- Created templates for interactive performance reports in **PowerBI**

TomTom India Pvt. Ltd. — Software Development Intern
(August 2020 - December 2020)

- Built various UI Elements of the TomTom Web App used by users to provide mapping data in **Angular**
- Worked with TomTom Map SDK to create various filters and accessibility options for the aforementioned TomTom web-app

Google Developer Student Clubs VIT — Core Team Member
(January 2019 - September 2020)

- Core team member of a technical student club powered by **Google Developers** aimed at helping other students learn upcoming technologies and building usable software for local businesses
- Trained a class of 60 in basic Machine Learning algorithms in **Python, Numpy, Pandas, Matplotlib, and Tensorflow @ MLFest 2019**
- Trained a class of 50 in a crash course to programming in **Python @ DSC Python Workshop 2019**
